

HNI GBSC India Training – November 27th – 28th, 2025

SIES School of Packaging organised a customised training program for HNI GBSC India on 27th and 28th November 2025. The training was conducted by Prof. Prasad Balan Iyer and Mr. Suresh Kunjan, which was designed for employees to enhance their professional competencies through a program tailored to the specific product categories and industry requirements of the organisation.

The training addressed the full packaging lifecycle, covering fundamentals and material selection, ranging from paper and wood to plastics and ancillary materials like honeycomb structures. Sessions also explored the critical sustainability viewpoint, offering delegates a comparative analysis of different substrates and their environmental impact.

The programme also covered the specifications and adherence to global standards such as ASTM and ISTA.

The packaging experts further covered packaging optimisation strategies, cost efficiency, and practical demonstrations of material testing to ensure transport worthiness.
